-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

**Status**

- 1) ☒ Responsive to communication(s) filed on 08 May 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's amendments, filed 5/8/2006, have been fully considered and reviewed by the examiner. The examiner notes the amendments to claims 1, 6, and 21 to include the allowable subject matter and the subsequent cancellation of claims 2, 3, 5, 7, 8, 11, 13, 14, 16-18, 27, and 28. The examiner notes the addition of new claims 29-37. Claims 1, 4, 6, 9, 10, 12, 15, 19-22, 24, 26, and 29-37 remain pending in the application.

### ***Response to Arguments***

2. Applicant's arguments with respect to claims have been considered but are moot because they are directed to newly added limitation and claims that were not present in the previously rejected claims. Rejections to the new limitations to follow.

### ***Claim Objections***

3. Claims 12, 15, 19, 22, and 24 are objected to under 37 CFR 1.75(c), as being of improper dependent form for failing to further limit the subject matter of a previous claim. Applicant is required to cancel the claim(s), or amend the claim(s) to place the claim(s) in proper dependent form, or rewrite the claim(s) in independent form. The independent claims require the undercoat and another undercoat to be formed of different materials having oxidation resistance.

***Claim Rejections - 35 USC § 112***

4. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

5. Claims 29-37 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter, which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

Claims 29 and 34 includes subject matter, such as "applying spray without using a slurry" and "subsequently without a heat treatment", which appears to be new matter because the necessary exclusion of such elements is unsupported by the specification and therefore must be deemed new matter because such an exclusion necessarily includes all other possibilities.

The other dependant claims do not cure the defects of the claims from which they depend.

***Allowable Subject Matter***

6. Claims 1, 4, 6, 9, 10, 20-21 and 26 are allowed.
7. The following is a statement of reasons for the indication of allowable subject matter: None of the prior art cited or reviewed by the examiner alone or in combination reasonably suggests only partially removing an undercoat comprising Co-based MCrAlY

Art Unit: 1762

and replacing only the removed portion with a Ni-based MCrAlY layer. One of ordinary skill in the art would not reasonably expect success substituting different materials because of issues dealing with compatibility between the two materials.

### ***Conclusion***

8. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the date of this final action.
